

FASTMAN MANAGEMENT SUITE

FOR EXTENDED ECM

An all-inclusive solution tailored to manage your business' data.

- Enhance your extended ECM to swiftly manage your business' data permissions, information security, access controls, bulk data operations, seamless data transfers, and extraction tasks
- An integrated suite of software solutions working together to increase your security and simplify the process.

Our comprehensive, cloud-enabled and off-cloud solution designed to streamline your business' data permissions, ensure information security, enforce access controls, manage bulk data, facilitate smooth data transfers, and handle extraction processes efficiently.

More Powerful Together

The Fastman Management Suite provides tools that empower your extended ECM database to perform data management tasks at a faster pace, with improved accuracy and enhanced security. Our suite of products work together seamlessly, increasing their effectiveness and giving you complete control over your data, your users, and your business. Our integrated user interface makes even complex tasks easier to manage with minimal training and without the need for complex and expensive scripts or IT support.

A Comprehensive Suite

The Fastman Management Suite bundles Fastman's most requested solutions together:

- Permissions Manager
- Permissions Manager for Outlook
- Access Manager
- Bulk Data Manager
- Bridge Connector
- Extract Tool

Your Partner In Data Integrity

Fastman is a trusted provider of Extended ECM information security solutions, with almost 20 years of experience in this field. Fastman offers a unique combination of technological capabilities and expertise in OpenText and SAP Extended ECM products that are unmatched in the market. Its tools enhance the functionality helping clients manage their data more effectively, automate manual tasks, and reduce the risk of errors. Fastman's customer service is exceptional, with ongoing support and training to ensure clients can use its products and services effectively.

At Fastman, we understand the importance of maintaining the integrity of your information, and we have the necessary expertise and tools to ensure that your data remains secure and accurate.
